Hold the Date - Plan to Register - Submit an Abstract

Multidisciplinary Benign Urology Research Day
May 11, 2018 at Duke University
Albert Eye Research Institute Auditorium

Researchers and clinicians with an interest in any aspect of benign urological diseases are invited to attend. This is an opportunity for exchange of ideas, networking with colleagues and trainees, and productive discussions among basic, translational and clinical scientists. We strongly encourage participation of all disciplines to develop a collaborative and multidisciplinary approach to answer urological research questions.

Keynote Speakers - Panel Discussions
Panel and Poster Presentations - Trainee Awards - Lunch with the Experts

- **Trainee Abstracts due by April 19, 2018.** Abstracts can cover any aspect of Benign Urological Research. Four Trainee Awards will be given: Two in the basic/translational category and two in the clinical research category for oral presentations selected from submitted abstracts and or best poster presentations.

- **Non-Trainee Abstracts due by April 24, 2018.** All abstract submissions are strongly encouraged. Posters are great for discussing projects and ideas, networking, and recruiting.

- **Keynote Speakers**
  - Greg Tasian, MD, MSc, MSCE, Assistant Professor of Urology and Epidemiology, Perelman School of Medicine at the University of Pennsylvania; Attending Pediatric Urologist, Center for Pediatric Clinical Effectiveness, Children’s Hospital of Philadelphia
  - Sheela Sathyanarayana MD, MPH, Associate Professor of Pediatrics, University of Washington, Seattle Children’s Research Institute; Attending Pediatrician, Harborview Medical Center, Pediatric Environmental Health Specialty Unit; Medical Director, University of Washington Newborn Nursery

- **Panel Discussions** on Urinary Stone Disease and The role of Environmental Exposures and Lifestyle on Male and Female Genitourinary Development and Disease

Panelists
  - Emily S. Barrett, PhD; Associate Professor, Department of Epidemiology, Rutgers School of Public Health, Environmental and Occupational Health Sciences Institute (EOHSI)
  - David Goldfarb, MD; Professor of Medicine and Physiology and Neuroscience at NYU and Clinical Chief of the Division of Nephrology
  - Tanecia Mitchell, PhD; Assistant Professor of Medicine, University of Alabama
  - Susan Murphy, PhD, Associate Professor, Obstetrics and Gynecology, Duke University; Chief, Division of Reproductive Sciences; Director, Epigenetics Research Laboratory; Director, NICHES Children's Environmental Health Center.
  - Heather Patisaul, PhD; Professor in Biological Sciences, North Carolina State University
  - Jonathan Routh, MD Associate Professor of Surgery and Pediatrics, Duke University
  - Charles D. Scales Jr, MD MSHS; Associate Professor of Urologic Surgery, Vice Chief of Urology, Duke University

This event is co-sponsored by the Duke Multidisciplinary K12 Urologic Research Career Development Program (KURe) and the Duke Pelvic Medicine Research Consortium (PMRC).
